1 Bridle Way

An exceptional architect designed detached villa, part of an exclusive housing development, built in 2005 to a high specification with a wealth of features and quality fixtures and fittings. The floor space measures approximately 210m sq (2250sq ft). The building design includes an interesting 45 bend connecting the east and west halves of the dwelling, adding considerable character to the layout. Thoughtfully designed with the practicality and functionality of comfortable family living in mind, the generous floor space has been utilised to create a spacious home offering well-balanced living accommodation spread over two floors which is presented in first-class condition. The gardens grounds are generous in size and mainly laid to lawn with well stocked, decorative planted borders which provide a heightened degree of privacy when in bloom. An ideal place for children and pets to play. Off-street parking is provided by a tarmac driveway and integral double garage equipped with power and light. The property also benefits from gas central heating, double glazing and a wealth of storage space.
